

Die Cutting Solutions

Tippmann Pneumatic presses offer a cleaner, cost effective alternative to large hydraulic presses. Our presses work in a variety of settings, from assembly line applications to white room and lab testing.

Die Cutting Presses & Accessories

Tippmann Clickers are unique in that they are completely pneumatic with no electronic controls. These die presses are lightweight and compact, and offer an affordable, virtually maintenance free alternative to other die presses of the same tonnage. In addition to our production Clicker line, we offer a full line of accessories and custom options.

COMPLETE:

- STEEL RULE DIE SERVICE
- CLICKER DIE SERVICE

SPECIFICATIONS:

- Cutting Pressure.....15 ton.
- Cutting Beam.....24" x 12"
- Cutting Area.....24" x12"
- Deck clearance.....2.0"
- Travel of deck is adjustable1.0"
- Recommended die height.....1.25"
- Approximate Shipping weight.....560 lbs
- Operating Pressure.....80-110 PSI
